We are pleased to inform you that Conservation Voters of South Carolina (CVSC) has endorsed your re-election to the South Carolina House of Representatives from District 89 because of your proven commitment to conservation and protecting our way of life in South Carolina.

Your support for conservation issues has led to a 87% score on our 2018 scorecard, and, since that time you have continued to lead on clean energy and other common-sense conservation topics. From advocating for clean energy, to co-sponsoring numerous energy reform and clean energy policies, and speaking at CVSC's town hall related to solar actions of the Public Service Commission, you have been a clear and consistent clean energy champion.

You have also supported proactive policies that move our state forward – including the Conservation Bank and shoreline management. We also appreciate you standing firm against efforts to strip local communities of their rights to make their own decisions regarding local plastic pollution.

For this and more, we want to see you return to Columbia to continue your leadership and work on all of these important issues.

A key part of our mission is to let South Carolina voters know where elected officials and candidates stand on protecting our air, land and water and on creating a sustainable energy future. When the General Assembly convenes for the January 2021 session, citizens of South Carolina will be depending on you to protect the natural resources that fuel at least a third of our state's economy. We appreciate your willingness to work with us and consider our position when making your decisions on important conservation issues before the House.

You may use our endorsement in your campaign materials as well as on your website and social media pages. Working together, we can provide a clean and healthy South Carolina for future generations.

Sincerely,
