The Honorable Nikki Setzler
249 Congaree Park Drive
West Columbia, SC 29169

Dear Senator Setzler:

We are pleased to inform you that Conservation Voters of South Carolina (CVSC) has endorsed your re-election to the South Carolina Senate from District 26 because of your outstanding commitment to conservation and protecting our way of life in South Carolina.

Your support for conservation issues has led to an 82% lifetime score on our Conservation Scorecard! Your commitment to conservation and ability to achieve results has been outstanding.

Without your leadership and support, South Carolina would not have a Conservation Bank and would not have such a strong legacy of protected lands to pass to future generations. From reauthorization, continued funding, and selection of new leadership for the Bank, you've had a critical leadership role in it all – and we cannot thank you enough.

In addition, you've provided critical leadership in the fight against offshore drilling, worked tirelessly to ensure the Edisto River and all of South Carolina's waterways are clean and plentiful, and have supported critical clean energy and energy reform measures.

For this and more, we want to see you return to Columbia to continue your leadership and work on these important issues, and we enthusiastically endorse you for re-election.

A key part of our mission is to let South Carolina voters know where elected officials and candidates stand on protecting our air, land and water and on creating a sustainable energy future. When the General Assembly convenes for the January 2021 session, citizens of South Carolina will be depending on you to protect the natural resources that fuel at least a third of our state's economy. We appreciate your willingness to work with us and consider our position when making your decisions on important conservation issues before the Senate.

You may use our endorsement in your campaign materials as well as on your website and social media pages. Working together, we can provide a clean and healthy South Carolina for future generations.

Sincerely,
