You have been a loud and consistent voice for protecting the air, land, and water of South Carolina and we appreciate your strong record and leadership on clean energy and other common-sense conservation topics. For this and more, we want to see you return to Columbia to continue your leadership and work on all of these important issues.

A key part of our mission is to let South Carolina voters know where elected officials and candidates stand on protecting our air, land and water and on creating a sustainable energy future. When the General Assembly convenes for the January 2021 session, citizens of South Carolina will be depending on you to protect the natural resources that fuel at least a third of our state's economy. We appreciate your willingness to work with us and consider our position when making your decisions on important conservation issues before the House.

You may use our endorsement in your campaign materials as well as on your website and social media pages. Working together, we can provide a clean and healthy South Carolina for future generations.

Sincerely,
